SIGN UP FOR THE SDL PORTAL TO ACCESS PERMIT RECORDS

In order to better serve Construction Code customers Sparta Township has opened a public internet portal that allows access to construction permit records and application status. The Township Construction Code office integrated with Spatial Data Logic (SDL) of Somerset, NJ for Construction Permit software. Spatial Data Logic offers municipal software solutions to a number of municipalities throughout New Jersey.

One of the many features SDL offers is the ability for public internet access to construction permit records and application status. Sparta Township is now offering this service. By utilizing this free service, members of the public can search construction permit records and application status on their own from any internet capable device.

A free user account is required. User accounts can be created by visiting www.sdlportal.com users can create an account and start using the service. With the same user account, you can switch towns and search records in other participating municipalities such as Vernon Township, Frankford, Lafayette, Byram, Montague, and West Milford to name a few. This could be of particular assistance to Real Estate professionals, Attorneys and Contractors.

The Construction Official says "The information available on the portal is the same information that the Township has been providing over the counter and via email when requested. No personal or private information is viewable from the portal."

Please visit www.sdlportal.com today to take advantage of this valuable research tool.

SCHEDULE INSPECTIONS THROUGH THE SDL PORTAL

- You can access the Construction Permit Inspection Request from either the Requests Page or the Home Page of the Towns SDL Portal.
- Search for the Permit by: Control Number, Permit Number or Location of the worksite.
- After typing in the search criteria, the results will display below the Search field - Click on the permit to continue on to schedule an inspection.
- The Subcodes related to this permit will be available to choose from - Click on the associated Subcode
- Then choose from the list of inspection type options.
- Include any additional notes in the Additional Notes field
- Choose the dates from the calendar that you would like added to your request. (Please note: Towns may have 1-3 date options to select from)
- Once you have selected your desired dates, scroll down and click Submit Request
- Once submitted you can print a copy of the confirmation. You will also receive an email confirmation of your request. The town will review your request and you will receive an inspection date via email once approved.
