2014 Roadway Resurfacing Program

PROJECT COMPLETION REPORT

Project:

Included the Milling, Paving and Striping of select distressed Township Roadways; Roadway selection is predicated upon a conditional assessment by the Township Engineer and Director of Public Works. All roadways are prioritized based on the ratings assigned and scheduled for resurfacing in accordance with annual funding by the Township Council.

Summary:

The 2014 Road Resurfacing project was completed on July 29, 2014 with the final paving of Kimberly Court. This year the Township installed approximate 4,700 tons of asphalt on six (6) Township Roads, milled approximately 19,000 square yards of asphalt in preparation of the final paving and replaced 520 linear feet of concrete curbing on Kimberly Court. The project was a success with only minor impacts to traffic flow and resident inconvenience while improving rideability, drainage control and structure.
