Memo

To: Chief Spidaletto
From: Cpl. Kurt Morris 
Date: 10/13/2021
Re: 4 Ton limit on White Lake Rd

Chief

I recently conducted a traffic study on White Lake Rd regarding the truck traffic and the 4-ton weight restriction that was posted on the roadway. Over the past year there has been several businesses added as well as another road (Aaron Way) to the area off White Lake Rd. These additions include buildings and businesses that call for 4-ton vehicles to travel White Lake Rd. In addition to the new businesses and Aaron Way, there is also Camp Sacajawea and Vo-Tech High School. Camp Sacajawea as of late has been using their campgrounds on a regular basis and having trucks and vendors enter their property daily. Vo-Tech High School has the normal every day delivery trucks that access the school for delivering school supplies and or food. With this amount of traffic solely from the everyday use from the local businesses, the 4-ton limit has become obsolete.

With regards to the other trucks using the road either as a cut-thru or for their own safety reasons. The truck traffic as well as the normal traffic has increased over the last year, especially on Rte 15. If the 4-ton vehicles do not use White Lake Rd, from Rte 15 they must continue North to Rte 94. The same goes for the trucks on Rte 94 having to continue to Rte 15. For the trucks that have to travel North on Rte 15, they have to navigate a hill that enters Lafayette Twp. that approaches Rte 94. This hill is steep with a -7.29% slope. A 4-ton truck that is loaded or not has to rely heavily on the trucks mechanical system to slow and stop the truck prior to the intersection or for any vehicle hat is stopped on the hill. For the trucks that must travel in the opposite direction coming off of Rte 94, they would in return have to travel up the steep roadway. Again a 4-ton truck would always struggle attempting to make it up a step grade such as this portion of the road. With the increase in truck traffic, the potential and probability for an accident to occur due to trucks having to bypass White Lake Rd is increasing by the day.

The traffic study that I conducted took place for 6 days, 9/30-10/05. I placed the L.E Traffic Radar Box on a telephone pole on White Lake Rd in the area of Aaron Way. This calculated all the vehicles that traveled in both directions during this time. The total number of vehicles that traveled White Lake Rd was 33,814. Besides volume and speed, the radar box also detects length of the vehicles as the pass.

SPARTA TOWNSHIP POLICE DEPARTMENT
65 MAIN STREET
SPARTA, NJ 07871
(973) 729-6121

I must advise that a school bus, pick-up truck, or any other smaller vehicle towing a trailer will be detected as a larger vehicle.

After all 33,814 vehicles were categorized into length, it was determined that 2,795 of those vehicles were at a length that would be equivalent to a 4-ton vehicle. That is only 8.2% of the vehicles that traveled White Lake Rd.

In conclusion, it is in my professional opinion that removing the 4-ton restriction to White Lake Rd will not significantly increase the truck traffic to this area. The trucks and or larger vehicles are already present on a small percentage. Removing the 4-ton restriction will also limit the number of trucks that have to travel the steep grade on Rte 15 and will reduce to possibility of a serious traffic accident.

I will also add that it was determined during the traffic study that speed was not a factor on this roadway. Also, it showed that the speeds in 85% range, showed to be 48.9 mph. This specific percentage indicates that the police department would be justified in raising the speed limit to 50 mph based on the study and the lack of any motor vehicle incidents in the area. I would not recommend that at this time and suggest that the speed limit remain at 40 mph.
